

SemiDice is the preferred global wafer and bare die component supplier to the microelectronic industry. SemiDice is dedicated to providing reliable bare die for military, aerospace, medical and robust industrial applications.

## AMERICAS

### SemiDice Headquarters - Los Alamitos, CA

10961 Bloomfield Street, P.O. Box 3002

Los Alamitos, CA 90720

Phone: 562.594.4631

Fax: 562.430.5942

### Americas & APAC Sales Contact

Laura Margeson

VP, General Manager

LMargeson@semidice.com

## EUROPE

### SemiDice Europe - Norwich, UK

3 Hellesdon Park Road, Drayton High Road,

Norwich, Norfolk. NR6 5DR, UK

Phone: +44 1508.486048

### EMEA Sales Contact

Stephen Bull

Sales Manager, EMEA

SBull@semidicecomponents.co.uk

### Bare Die & Wafer Distribution

- Order Die with Completed Confidence and Manufacturer Support
- Active and Passive Devices

### Wafer Mapping / Inking / Sawing

- Wafer Sizes Up to and Including 12" (300mm)
- Able to Support Custom Requirements and Specialized Carriers

### Wafer Probe

- Room Temperature & Hot Chuck Probing
- Re-Probe Customer Wafers to Tighter Limits

### Lot Acceptance Testing

- MIL-PRF-38534 Class H, K, & T

### Customized Output

- Waffle Pack and Gel-Pak®
- Tape-N-Reel

### Obsolescence & Material Management

- BOM Management
- Procurement, & Logistics Programs
- Obsolescence Planning
- Kitting

### Design Support Providing:

- Die Availability
- Die Maps
- Die Data Sheets
- Newly Developed Die

# Meeting Worldwide Demand for Wafer and Die Products

## Active Bare Die & Wafer Suppliers

*Adesto Technologies*  
Memory

*Analog Devices Inc.*  
Analog, Power  
Management, RF

*Calogic LLC*  
Transistors

*Central Semiconductor*  
Transistors, Diodes, SiC

*Good-Ark Semi.*  
Transistors, Diodes

*International Rectifier*  
Analog, Transistors

*ISSI*  
Memory, Analog

*Microdul*  
Sensors

*Microchip*  
Analog, Diodes

*ON Semiconductors*  
Analog, Transistors, Diodes  
Power Management

*Texas Instruments*  
Analog, Power  
Management

*Vishay Intertechnology*  
Analog, Transistors,  
Diodes

*VPT Components*  
Transistors, Diodes

*Wolfspeed*  
Transistors, Diodes,  
Power Management, RF

## Passive Bare Die & Wafer Suppliers

*Johanson Dielectrics*  
Capacitors

*Knowles*  
Capacitors

*Vishay Eletro-Films*  
Capacitors, Resistors

### About SemiDice

Since our beginning in 1976 the need for a company such as SemiDice, who can streamline the process of selling die for the semiconductor manufacturers and provide the level of service that is required by die users, has not changed. Our services have grown more extensive as device complexity and customer requirements have increased, however our goal remains the same: We strive to fully satisfy our customer requirements every time. To do this effectively, we have two divisions within SemiDice; one for standard products and one for High Reliability devices. This allows us to be very aggressive on pricing for high volume commercial/industrial applications and also provide the highest levels of testing and qualification for defense/aerospace and life support applications where failure is not an option.
